Green P Valuepaks

Increase the traffic in your store.

Here's How It Works...

There are three valuepak scenarios that are available to you as a store owner. All of them offer the ability to reward your customers, and increase traffic flow. You'll have an automatic financial record *and* receive a tax receipt.

1 For Attended Lots

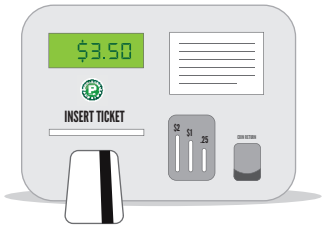

You buy  stamps

Stamp Value = 1/2 HR Parking Rate
Available in 100 stamp booklets.

Give the stamps to customers as rewards
(e.g. \$1 stamp for every \$25 spent)

Your customer hands stamps in to save on parking.

2 For Auto Express Lots

You buy  discount cards

Card Value = 1/2 HR Parking Rate
Available in 100 card booklets.

Give the cards to customers as rewards
(e.g. \$1 card for every \$25 spent)

Your customer inserts ticket and discount card at the Auto Express Station to save on parking.

3 For Unattended Lots or On-Street Pay and Display Meters.

Customer parks and *prepays* for parking

Customer receives a 2-part ticket.

Customer presents *Part 2* of the ticket to you

You can offer to pay all or a portion of your customers parking fee
