Behind the Scenes

The Fast Track Card is like a combination parking access card, payment method and expense management system all rolled into one.

Fast Track eliminates parking hassles that people encounter when they are on the go – like keeping track of individual receipts, accurately completing expense reports to make sure all out-of-pocket expenses are reimbursed, and ensuring that you have a credit card or enough money on hand for payment.

Companies establish a corporate account with the TPA and subscribe to the Fast Track Card parking service. Parking is managed by the Toronto Parking Authority at GreenP lots around the GTA. The Fast Track Card is also accepted at all on-street equipment that permits payment with a credit card.

You will benefit from the speed, convenience and simplicity of the Fast Track Card every time you use it at a GreenP lot.

Your designated company administrator defines a profile that includes organizational and user information. Users receive a Fast Track Card. A payment method is associated with each card set up under the corporation account umbrella, and all payments are processed against this.

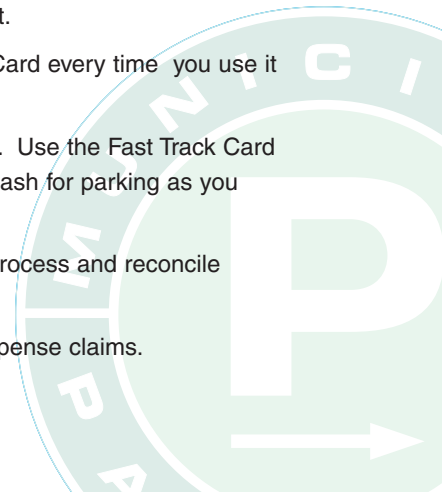

Equipment at GreenP lots (and most on-street locations) can read the magnetic stripe on the back of the card. The single card gives you access to virtually all GreenP locations around GTA, and enables you to consolidate all your parking transactions within one simple to manage account.

You will benefit from the speed, convenience and simplicity of the Fast Track Card every time you use it at a GreenP lot.

Information about your parking transactions is forwarded weekly to your email. Use the Fast Track Card and forget about keeping track of receipts, or remembering to carry enough cash for parking as you head out for a busy day.

Consolidated statements and billing abilities enable businesses to efficiently process and reconcile parking expenses.

Remember to follow your company's established procedures for submitting expense claims.

How to Use the Card

The single card gives you access to virtually all GreenP locations around GTA, and enables you to consolidate all your parking transactions within one simple to manage account.

FAST TRACK IS AS EASY AS 1-2-3

Sign the back of your card and start using it immediately.

Use the Fast Track Card instead of cash or credit card at over 170 off-street GreenP facilities, and over 19,000 on-street spaces with a GreenP Pay-and-Display machine.

- At Pay-and-Display machines for on-street or off-street unattended locations, insert the Fast Track Card into the credit card slot and obtain your ticket to place on your dashboard.
- At automated lots, insert the Fast Track Card in the machine when you enter the lot and again upon exit - you don't need to obtain a ticket.
- At Attended lots with exit cashiers, give the Fast Track Card and your ticket to the attendant.

Fast Track makes management of your business activities more convenient, and frees you to focus on your important objectives.

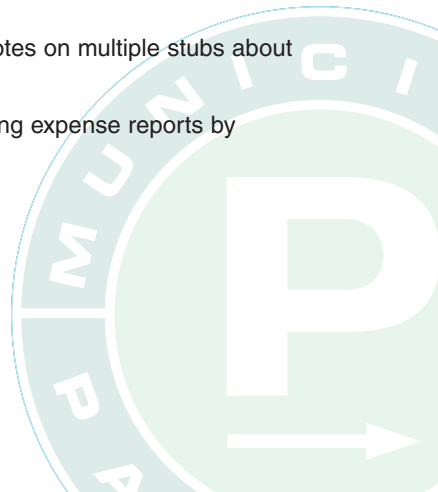

Activity Tracking & Reporting

SMOOTHLY MANAGE YOUR BUSINESS EXPENSES

Each week you receive an electronic activity report of all your GreenP parking activity. Stay organized and up to date, and eliminate the worry of misplaced parking stubs or remembering the details required to submit expense reimbursement requests to your company.

- See details for all your Fast Track Card transactions – no need to jot down notes on multiple stubs about where, when and how long you parked or how much you paid.
- Receive historical transaction information – reduce the time spent on preparing expense reports by pulling one supporting report for your company's reimbursement process.
- Contact Customer Support for any questions or comments
